PROMISES MUST BE KEPT

Two years ago the Republicans swept the nation with a majority of 7,500,000. They captured just about everything in sight, even Oklahoma and Tennessee breaking away from the solid South. In the short space of two years the people have repented of their action and kicked the Republicans out right and left. Dopesters said that the Democrats would do remarkably well to hold their own in the senate, but they have upset this by capturing a number of seats that looked absolutely safe for the Republicans, thus cutting down the Republican majority of 24 to a number so small that it will be easy to overcome two years hence and cutting down the majority of nearly 200 in the house to the vanishing point. The Democrats lost their senators in Ohio and Nebraska and perhaps in Utah, but have more than overcome these losses elsewhere. Even Senator Lodge received a hard jolt in Massachusetts and for a time appeared to have been defeated. The Democrats won several governors, including the rock ribbed Republican state of New Hampshire, to say nothing of Kansas.

Much of this state of affairs is due to the fact that two years ago the Republicans entered the campaign with a long string of extravagant promises. The taxpayer was promised relief from his burdens, the laboring man was assured of steady employment at high wages all classes were promised a reduction in the cost of living while on the other hand the producers were promised better prices for their products. Everybody was to have anything that might be demanded and all were to be happy. Oklahoma farmers were promised 40-cent cotton and thousands of them voted the Republican ticket.

Of course no thinking man believed for a minute that these rosy hued promises could be carried out, but the idea was to catch votes and it worked. The Republican leaders probably thought that the people would forget these promises as in times past, and were doubtless surprised when the voters, who had accepted the promises at face value began to demand that they be carried out. There was no alibi handy for the Republicans and Congress wobbled, temporized and gave more thought to the problem of holding the voters in line than to the needs of the nation.

The Democrats will do well to profit by this lesson. The people will no longer be satisfied with men or parties who seek to ride into power on promises that they cannot or will not carry out. With both houses and the White House in the hands of the Republicans for two years more the Democrats will not be able to put much legislation through, but when the next national convention meets it will do well to make only such promises as will be carried out in good faith. Herein lies the opportunity to win the confidence of the voters. The Wilson administration carried out more pledges than any in recent years and got the people into the habit of expecting platform promises to be kept.

COTTON EXPORTS

The market increase in cotton exports during the past week, as compared with the same week last year, in the face of unfavorable conditions abroad, was only one of the influences contributing toward the improvement in the price, but as a factor in the outlook for the future it is of prime importance. The market for manufactured goods of foreign mills is not any too good, and there is talk of shutting down in many sections of Europe, but the demand for export cotton holds up. When there is genuine improvement in the market for the output of the mills, which must come sooner or later, it may be expected that the best export demand since the armistice will develop. —Fort Worth Star-Telegram.

The rise of the facisti in Italy promises to be the means of stabilizing that country in this time of crisis. The government had shown its inability to handle the situation and sowed a weakness and indecision that threatened its downfall. The new organization, which is violently opposed to communism and bolshevism, has taken a firm hold on the situation and if it conducts affairs with wisdom will restore Italy to her former position and will lead the country back to prosperity. No one has known what to do or else has lacked the courage and means of carrying out what should be done, hence the threatened reign of chaos. Italy has produced some great leaders in times past and if another comes forward at this time Italy will be a power to be reckoned with.

The News extends its congratulations to the district and county nominees on their great victory. Pontotoc county has always been one of the Democratic strongholds of the state and this election clinches it firmer than ever. It is a victory of which they may well be proud.

ITALY'S MODERN GLADIATOR

NOTE—The Fascisti party, headed by Premier Mussolini, which now controls Italy, derives its name from the fasces, the ancient symbol of authority of the old Roman magistrates.

Scientists Start Expedition To Locate Lost Specimens Marine Life of Past Decades

(By the Associated Press)

SAN FRANCISCO—Fifty years ago a "lime-junker," as the square-rigged sailing vessel of that time was called, would have to shorten sail and steer a careful course along the South Pacific coast at certain seasons if it wanted to avoid destructive collisions with the California grayback whale. And if the skipper trained his glass along the coast line, he probably would see every exposed rock or seaward shoal black with elephant and fur seals. Closer in he would note great tortoises and sea turtles, while above would wheel the Heermann gull.

Such an orgy of destruction has been loosed on these sea creatures, some of them termed by scientists to be "the biggest animals in the world," in the last half century, that there is a campaign on today to have the state department negotiate treaties with all countries bordering on the Pacific to prevent their absolute extermination.

One of the great mammals, Steller's sea cow, already has joined the Great Auk, the Dodo and other storied creatures of a dead age. In 1741, when the exploring ship of Captain Vitus Bering was wrecked on the island that bears his name, the great, sluggish sea cows were found floundering about by Dr. George William Steller, doctor of the expedition. Large herds later were seen feeding on the kelp and seaweed around the nearby Commander islands, and it soon was found that their meat made an excellent food.

Expeditions Sent Out.

When the news of the discovery of Bering Island was made known to the world several expeditions were fitted out to hunt the sea cow. How well they succeeded is attested in the fact that by 1754, only 13 years after its discovery, this great animal, 24 to 30 feet long and weighing three or four tons when fully grown, disappeared from the ocean. Moved by the nearness of a similar fate for the walrus, the elephant seal, the sea otter and the southern whales, the committee on Conservation of Marine Life of the Pacific, a part of the American Association for the advancement of science has started the campaign to have the state department act.

One hundred years ago, the committee points out, a species of fur seal had extensive breeding rookeries on the Farallon Islands and other islands on the coast line of California and Mexico. More than 200,000 of these seal were killed in the short period between 1808 and 1811 on the Farallons alone, while thousands of others were added to the slaughter on the channel islands virtually exterminated this species of seal.

Object Extermination of Whale.

Further objections to the wholesale extermination of whales have been raised by the sardine fishermen of Monterey Bay, California, who claim that the whales herd the sardines in shore. Recently the examination of the stomach of a humpback whale brought into Moss Landing whaling station in Monterey Bay yield from 1500 to 3000 pounds of sardines. In the stomach

of a sperm whale was found a ten foot shark.

Due to the failure of the United States and Great Britain to include Japan in the treaty of 1892 forbidding the killing of seals in the open sea, the Alaska fur seal herd was decreased by nearly 300,000 from 1897 to 1911, according to scientific data. A new fur seal treaty was negotiated in 1911, the participating countries being the United States, Great Britain, Russia and Japan. Since the time that treaty was made the herd has increased by near 400,000. So great has the increase been that there is a suspicion that plagio or ocean sealing is again going on against the strict ruling of the guardian nations. It is pointed out that any nation not signatory to the treaty may engage in this sort of sealing among the Alaska herd, and exterminate it in time if new treaties are not drawn up.

Under the treaty of 1911 the Indians of California, Oregon, Washington, British Columbia and aborigines of Japan and Russia are permitted to both along the coast lines and in the ocean, and it is proposed to regulate this also.

INSPECTORS START PROBE OF RILEY MINE DISASTER

SPANGLER, Nov. 9. —State mine inspectors today started the official investigation of the Riley mine explosion which claimed 76 lives Monday.

Owners and officials of the mine were to be questioned today. The miners who were rescued from the gas filled pit also were to be asked to tell their stories.

SHIP BUILDING IN ENGLAND REDUCED

Merchant Tonnage Under Construction in United Kingdom Less

LONDON, Nov. 9. —Lloyds Register of shipbuilding returns for the quarter ended in September, 1922, show that merchant tonnage under construction in the United Kingdom on September 30 amounted to 1,617,045 tons. This represents a reduction of about 202,000 tons as compared with the total at the end of the previous quarter.

The total, however, includes a considerable amount of tonnage (419,000 tons) on which work has been suspended for some time. Deducting this amount for purposes of comparison with figures for normal times, the merchant tonnage actually under construction in the United Kingdom amounted to 1,198,000 tons.

The average tonnage under construction during the twelve months immediately preceding the war was 1,890,000, or 692,000 more tons than the present figures.

The total merchant tonnage now building abroad amounts to 1,085,511 tons, but includes about 256,000 tons upon which work has been suspended, leaving about 829,000 tons actually under construction.

The tonnage building abroad is about 230,000 tons lower than the total building at the end of June last, the figures for the leading countries are: Italy, 210,114 tons; France, 197,065 tons; Holland 177,924 tons; United States, 147,056 tons; and Japan 96,897 tons. These figures do not take into account the tonnage building in Germany and at

These Brothers Are Regular Visitors At The Savings Teller's Window

A few years ago D. L. D. and George D. — brothers, were living in Washington, D. C. They had heard much of Oklahoma, and were anxious to come to this state to enter the Civil Service. But they knew little or nothing of business. So they wrote to the largest business college in Chicago and asked which business college to attend in Oklahoma City. The school recommended HILL'S.

The brothers came to Oklahoma City, and soon finished their business education. But by that time they were convinced that a business career offered more opportunities than the Civil Service. Accordingly one entered an insurance office. The other started with a grain company.

Today the brothers own businesses of their own. Equipped with ambition, willingness to work, and HILL'S training

they have progressed further in a few years than most men in many years. Their bank accounts are larger than they ever dared dream before they entered HILL'S.

Perhaps you, too, are ambitious. The best way to succeed is to get a business education at HILL'S. Learn the fundamentals of the business you intend to enter. HILL'S employment department will find a job for you. Then, with HILL'S training, advancement should be easy. The cost is smaller than you imagine. Fill out the coupon and mail it now. It will bring HILL'S SUCCESS BOOK, which gives complete details. Be a success. Act now.

Dantzig, for which no returns are available, but it is estimated that the tonnage under construction in Germany at the present time is about 350,000 tons and at Dantzig 40,000 tons.

MOTION PICTURE CROOK STORIES EVER POPULAR

Crook stories in motion pictures invariably prove popular. According to the statement of Manager McSwain of the McSwain theatre, who announces that "The Face in the Fog," a superb Cosmopolitan production released by Paramount, will be the feature at that theatre Friday, he has procured for his patrons one of the strongest and most thrilling crook pictures ever shown in Ada.

"Lionel Barrymore, Seena Owen and Lowell Sherman are the featured players in this production," said Manager McSwain. "This insures the motion picture fans of this town a rare cinema treat. 'The Face in the Fog' is a Boston Blackie Dawson story by Jack Boyle, author of 'Boomerang Bill' which made such a hit here some time ago and in which Mr. Barrymore was featured. Miss Owen will be remembered for her fine work in 'The Woman God Challenged.' Mr. Sherman is a well known stage player."

GOVERNMENT TO ASK FUND TO PAY ILLEGAL COLLECTION

(By the Associated Press)
WASHINGTON, Nov. 9. —Congress will be asked for a deficiency appropriation of approximately forty-two millions of dollars to enable the internal revenue bureau to pay claims arising from taxes illegally collected by the government, it was said today at the treasury.

TRY SULPHUR ON AN ECZEMA SKIN

Costs Little and Overcomes Trouble Almost Over Night.

Any breaking out of the skin, even fiery, itching eczema, can be quickly over come by applying Mentha-Sulphur, declares a noted skin specialist. Because of its germ destroying properties, this sulphur preparation instantly brings ease from skin irritation, soothes and heals the eczema right up and leaves the skin clear and smooth.

It seldom fails to relieve the torment without delay. Sufferers from skin trouble should obtain a small jar of Rowles Mentha-Sulphur from any good druggist and use it like cold cream.

SUCCEEDS WHERE DOCTORS FAIL

Lydia E. Pinkham's Vegetable Compound Often Does That.—Read Mrs. Miner's Testimony

Churubusco, N. Y.—"I was under the doctor's care for over five years for backache and had no relief from his medicine. One day a neighbor told me about your Vegetable Compound and I took it. It helped me so much that I wish to advise all women to try Lydia E. Pinkham's Vegetable Compound for female troubles and backache. It is a great help in carrying a child, as I have noticed a difference when I didn't take it. I thank you for this medicine and if I ever come to this point again I do not want to be without the Vegetable Compound. I give you permission to publish this letter so that all women can take my advice."—Mrs. FRED MINER, Box 102, Churubusco, N. Y.

It's the same story over again. Women suffer from ailments for years. They try doctors and different medicines, but feel no better. Finally they take Lydia E. Pinkham's Vegetable Compound and you can see its value in the case of Mrs. Miner.

That's the truth of the matter. If you are suffering from any of the troubles women have, you ought to try this medicine. It can be taken in safety by young or old, as it contains no harmful drugs.

Attractive Blouses of Two Materials in Vogue

By MARY BROOKS PICKEN

HEAVY Canton crepe with a heavy Georgette crepe or with two thicknesses of Georgette is used in blouses for daytime wear. Duvetyn and satin with bead and embroidery trimming make other good combinations, especially the duvetyn when it corresponds with the suit or skirt. The progress made by dress artists is more evident in the blouse of today than in any other outer garment. The new blouse is smart and becoming and as useful and practical as it is convenient.

The blouse at the left is of heavy novelty crepe with side waist portions, sleeve trimming and waist-line finish of Canton crepe. The color is navy and the embroidery floss is dark navy with beads of red for definite color.

The blouse at the right is of dark brown duvetyn with tan crepe satin sleeves and tan, brown, and gold embroidery.

Parent-Teachers Association
Will Meet Friday Afternoon

The Parent-Teachers association of the Willard School will have a business session at the school building Friday afternoon, November 10, at three o'clock.

W. C. T. U. Meets
With Mrs. John Boud

The Womens' Christian Temperance Union met with Mrs. John Boud Wednesday afternoon with a full attendance. Every member answered to roll call with a peace quotation in observance of the Armistice Day program. The following program was given in a most enthusiastic manner:

Devotional—Mrs. Cora McKeel.
Song, "America"—Members.
"World Disarmament"—Mrs. C. C. Morris.

"War—A crime against humanity"—Mrs. John Boud.
"How to reach enduring peace"—Mrs. J. W. Westbrook.

Poem "Peace"—Mrs. R. L. Ford.
Solo—"Sweet peace the gift of God's Love"—Russell Boud.
Aaronic Benediction in union.

HIGH SCHOOL SENIORS
PLAN SOCIAL EVENT

The first social event of the year planned by the senior class of the high school will be held in the high school auditorium Saturday evening, according to an announcement today by the program committee.

Guests will assemble at eight o'clock. Committees were working this week to make the Armistice Day event one memorable to the senior year. Elaborate plans are being made for the entertainment of the class.

Glenwood Parent-Teachers Association to Meet

The Parent-Teachers association of the Glenwood school will hold a very important meeting at the building Friday afternoon at 2:30 o'clock. All members are requested to be present to discuss important matters to be brought before the meeting.

York-Fentem Nuptials.

Among Okmulgee's most charming young brides was Miss Mildred York, daughter of Mr. and Mrs. J. E. York of 112 East Third street, whose marriage to Alfred Longley Fentem, Jr., of Ada, took place Sunday afternoon at the home of the bride's parents. Every detail was marked by beauty and simplicity. Autumn leaves and ferns were beautifully arranged to form a background for huge yellow chrysanthemums which, against the darker setting of leaves, lent a dainty coloring to the rooms. Before an improvised altar of ferns the impressive service was read by the Reverend John A. Rice, pastor of the First Methodist Episcopal church, South.

Mrs. Leslie Flemming played Wagner's beautiful wedding march "Lohengrin" by which the bride and groom entered unattended and took their places before the altar of ferns.

The bride was beautiful in a gown of otter apone velvet, fashioned in the quaint Victorian style with buffant draping, with accessories of corresponding shade. Her bridal bouquet of sunburst roses and valley-lilies lent a delicate coloring to the richness of her gown and the bride's own loveliness.

Only the immediate families and a few of the closest friends witnessed the ceremony. Guests from out of the city were Mr. and Mrs. A. T. Fentem, Sr., parents of the groom, and Earl Fentem, the groom's brother, all of Ada. Immediately after the ceremony Mr. and Mrs. Fentem left for a short honeymoon in St. Louis and northern points, after which they will be at home to their friends at 513 East Tenth street, Ada.

Mrs. Fentem is one of the most

CATS AND 'COONS MAKE THIS COAT

popular of the social set of Okmulgee and by her wonderful personality has won a wide circle of friends who extend to the young couple best wishes for their happiness. The bride's family is one of the pioneer families of Okmulgee and Mrs. Fentem was a member of the 1919 graduating classes of the Okmulgee high school. She also graduated from the Ada Normal college and since that time has been a teacher in the public schools of this city.—Okmulgee Democrat.

DRINK WATER IF KIDNEYS HURT

Too much meat may produce uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back, or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning, and in a few days your kidneys may act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to help neutralize the acids in urine so it is no longer a source of irritation, thus often ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia water drink, and nobody can make a mistake by taking a little occasionally to help to keep the kidneys clean and active. Drink plenty of water at all times. Adv.

Bullfrogs are Pep Kings

College Football Games Made Lively by Hot Paddles and Zippy Yells of Order.

Organized for the sole purpose of promoting love for clear sportsmanship and creating a sense of loyalty to the school among the student body, the Bullfrogs, newest pep organization at East Central Teachers College, is making a rapid rise in prominence in this city. It is the third of its kind ever organized in the state, including the University of Oklahoma.

The organization includes only male members of the student body. Faculty members are barred from membership also, but endorsement of the faculty has been granted. Practically every boy and man in the school is a member or is making arrangements to become one immediately, officials of the Bullfrogs said today.

Many difficulties were encountered in the primary work of organization. First came the necessity of proving the sincerity of the club. This was accomplished by the cleanliness of spirit with which the members went about their work of promoting pep and enthusiasm for the football games which have been played here. Incidentally local football enthusiasts were given their first exhibition of what a real pep organization can do with college athletics.

Stunts which add much to the amusement and interest of a game are "put on" before, in the intermission period and after the games. Public initiations are also held for the amusement of the spectators. Officials of the club state that some of the most interesting stunts known to college pep organizations are to be on the program for future games here.

The pep organization is to be made permanent and demonstrations will be the same at basketball and baseball games as at the football games. Assistance is also given by this organization to the high school when home games are played. The work of the organization has done more than anything else to give a real college atmosphere to the local institution, in the opinions of students and faculty.

Equipment of the frogs is red shirts, skull caps, and paddles. Mike Cassidy is the Big Bull Frog, or president; Glenn Boyce is the Big Cow Frog or vice-president; Hogan Montgomery is the Green-back Frog or secretary-treasurer; Earl Johnson is the Bouncer Frog or sergeant at arms and the stunt committee is composed of B. Bonham, Earl Fentem, Ed Hunter and Shirley Greenburg.

Following is the laws of the organization:

Constitution.
"1. This organization is founded upon good fellowship, sociability, democracy and a dependable character and it is therefore composed of picked students of E. C. T. C."

"2. No student is wanted in this organization, who cannot help, assist and participate to the best of his ability in inculcating "pep" in E. C. T. C."

"3. Only students who have been or are now actually attending E. C. T. C. and owe no allegiance of any degree or nature to any other institution, or social order of this institution, are eligible. Provided: The aforesaid member declares that this organization shall be the first in thought, first in affections and in the galaxy of all other orders or organizations, that are active "pep" dispensers in this institution."

"4. No student is wanted in this organization who will not or cannot swear an unqualified allegiance to the government of the United States of America, its flag and its Constitution."

"5. No student is wanted in this organization who will not or cannot swear an unqualified allegiance to the "Frogs" in carrying on their activities—in all things honorable and reasonable."

"6. To the Members: Under no circumstances suffer any factions or ill feeling to spring up on our "Frog" organization and never favor any remarks or conversations that favor sedition. Always speak of the "Frogs" enthusiastically or not at all!"

By-Laws.

Article 1. This organization shall be known as "Frogs."

Art. 2. The principal place of activity shall be in E. C. T. C. and such other places as from time to time are selected.

Art. 3. The control of the organization shall be vested in the members duly assembled. Section 1: The officers shall be elected by members and serve for one season, football, basketball or baseball, and until their successors are elected. Section 2: The officers may appoint committees as may from time to time be necessary. Section 3: Meetings shall be held at any designated time that may become necessary and not less than two a month. Section 4: The president shall be known as the "Big Bull Frog," the vice president as the "Big Cow Frog," the secretary-treasurer as the "Green Back Frog," the sergeant at arms as the "Bouncer Frog."

Art. 4. Any officer or member may be removed for due cause by two-thirds vote of members duly assembled.

Art. 5. The "Green Back Frog" shall render an oral or written report of cash on hand at each meeting.

Art. 6. Officers and members must pass in the minimum of studies or be automatically suspended.

Membership.

Mike Cassidy, Glenn Boyce, Hogan Montgomery, Earl Johnson, Bonham, Earl Fentem, Ed Hunter, Shirley Greenberg, Wylie Blanks, Sam Little, W. Kapps, Harry Smith, Leonard Smith, Jack Kelly, Harry Thomas, Monroe Reed, Robert Culver, J. C. Robinson, Festue Snow, Jimmie McCoy, Clifton Parker, Truman Harrison, George Morrison, Russell Gatlin, A. B. Kirkpatrick, L. Thompson, Arthur Vernon, John McKee, Travis Kerr, Byron Roberts, Lyle West, Guy Meaders, Meaders Jones, Eddie Miller, Hardy Roach, Paul Waner, Harvey Faust, Bennie Shipman, Terry Manville, Dave Ricknor, Lloyd Lane, John Martin, Ott Harrison, John Lee, Jack Colbert, Bill Crawford, Webb Riddle, Cecil Cobb, Lowell Turner, Turner Garwood, Walter Lentz, Don Evans, C. Brown, Cole Jobe.

Tad-Poles.

Russell Boud, Frank Keltner, Joe Brown, Burgess Steed, Claude Thompson, Clyde Thompson, Vernie Jeffress, Roy McKeown, Dean Spencer, Clarence Bronaugh, Felix Lance.

GENERAL RAINS REPORTED IN THE GULF STATES

(By the Associated Press)

WASHINGTON, Nov. 1. —A disturbance of considerable intensity has developed over the lower Mississippi valley and has been attended by general rains in the gulf states, the Mississippi valley and Oklahoma. The weather bureau announced today. The disturbance is moving northeastward.

ROADS OF COUNTY BEING IMPROVED

Pontotoc County's System Had Lowly Beginning as Prairie Trails.

When Oklahoma entered the union of states the Indian Territory side of the new state had few roads other than trails rambling through the brush or across the prairies. One of the first problems which county commissioners had to meet was that of roads and bridges. In Pontotoc the problem was about the same as in other counties and the commissioners began to map out roads and build bridges.

These first bridges were wooden structures and those still in existence have had to be rebuilt two or three times.

Some years ago the policy of building bridges of concrete was adopted and has been followed ever since with the result that no matter what part of the county a person goes he finds concrete bridges and culverts and more being built as fast as funds are available.

Most of the important streams are now bridged and with steady work on the roads they are about as fair as dirt roads with no surfacing can be made.

Chug holes appear during long dry spells and these make traffic uncomfortable, but with dragging after every rain and grading occasionally the county will have to get along as it is until it decides to build permanent roads. There is no such thing as a permanent dirt road.

Stephens Grades Them

Speaking about the extension of improved roads, a News representative made a trip with Commissioner Clay Stephens to Allen township and went over several miles that have just been put into passable condition. This is from Lula to Hall's Hill, thence west to the Chickasaw township line in the Lovelady neighborhood. The road had been laid out a long time but very little had been done towards its improvement. During the past few weeks a force under the direction of Mr. Stephens has cleared obstructions and graded the road. It only needs a good rain to settle the loose dirt and a thorough dragging to make it equal to most of the state highways. A few culverts and bridges will be needed and material is on the ground for these.

From this road two other connecting with the Cotton Belt highway on the north have been put in good condition. One of these passes through Conway.

Allen-Lula Road Better

Another road in this township which has had attention and greatly improved is the one from Allen to Lula. Some work had been done before Mr. Stephens took hold, but during the past eighteen months it has been improved to an extent that it is now possible for all traffic to pass over it. Before these roads were put into fair condition it was a hard matter for a large number of citizens in that part of the county to reach either Allen or Ada. Mr. Stephens has not by any means confined his attention to Allen township. During his term of office he has graded every foot of road in his district, whether highway or township, has built two large concrete bridges and numerous culverts. Another late improvement is the stretch of road from the Cotton Belt highway through the Happyland school district to the Francis road on the north.

New Cummings Production Carries Fine Cast

When the cast for the new Irving Cummings production of Louis Duryea Lighton's story of the underworld, "Flesh and Blood," was assembled, a group of leading men and women were given the principal parts. All of them have been featured alone in former pictures; and now they may be seen together in the photoplay coming to the McSwain theatre Thursday and Friday.

Lon Chaney has been regarded as the most powerful character actor on the screen today; and in "Flesh and Blood," he impersonates an escaped convict whose fear of the law is so great that he disguises himself and becomes a helpless cripple. His portrayal is vivid and compelling—one which extracts the utmost sympathy. Edith Roberts and Jack Muhl take care of the romantic interest, the former playing the daughter of the convict, the latter, the son of the financier who sent the unfortunate man to prison. Ralph Lewis, famous for his work in Griffith productions is the conscience-stricken magnate while Noah Berry enacts a cunning Oriental to the manner born. A detective is admirably limned by De Witt Jennings.

The author of "Flesh and Blood" Louis Duryea Lighton, was formerly a newspaper man and then a social worker. He has come into personal contact with numerous underworld characters and knows the psychology of the man who has lost hope behind prison walls.

OIL AND GAS ROYALTY NETS U. S. SEVEN MILLION

(By the Associated Press)

WASHINGTON, Oct. 31. —Total net royalties accruing to the federal government as the result of the production of oil, natural gas and natural gas gasoline on leased public lands in the year to October 1, amounted to \$7,879,909, according to figures made public today by the bureau of mines.

Farmers' Column

By Byron Norrell

October went out amid a rain and November comes in with the first frost of the season heavy enough to be considered killing. It finds the farmers with the crops nearly all in and ready to begin breaking their land for next year's crops as soon as there is sufficient moisture to make plowing possible. While the year's crops have not entirely restored the prosperity of the country, they have been sufficient to greatly relieve a very bad situation and to put things in better shape for a new start next year. One thing that will help a great deal is the fact that most farmers raised enough to eat, hence will be relieved of a considerable item of expense for next year. The lot of the farmer has been a hard one the past two years, but the worst of times have improved and a wave of prosperity followed a period of depression.

Club Boy Makes Bees Pay.

The following report to the county agent details the experience of Archie Solomon with his colony of bees this year. Archie lives near Vancas and has been an enthusiastic club member for quite awhile. The fact that he got 203 pounds of honey from his hive this year is strong evidence that Pontotoc county is a good place for bees. It also shows what a bright boy can accomplish with a little effort properly directed. Here is what Archie says:

I was so encouraged over my success of last year's bee club work that I was eager for the second year's work. Last year I exhibited at the township, county and both state fairs, winning \$26 in cash prizes besides the special premiums of three dozen fruit jars and \$2.50 in trade at the Stiles Bee Supply Co.

On the last examination on November 5, 1921, I found my bees in good condition with 50 pounds of honey. The weather was so mild last winter that I examined them again January 29 to see if they had plenty of honey. I found them in good condition. They came through the winter in fine shape and commenced brood rearing February 15.

They had built up to a strong colony when the honey flow began May 20. I examined the hive every eight days during May to remove queen cells to prevent swarming, but on the second examination I failed to get all the cells and they swarmed on the 19th. I looked through the hive and found the young queen. When I put the swarm back I placed a board in front of the hive and brushed the bees on it, a few at a time, until I found the old queen and caught and killed her and as they had a young queen then they did not swarm any more.

On May 20 I placed on a super with full sheets of foundation. When they began to seal the honey I placed on another super beneath the first. On June 7 I took off the first super of honey and placed on another one. I kept two supers on the hive all during the honey flow. The first super of honey was dark but I found a ready sale for all I had. When the clover began to bloom the honey was much brighter.

I took great pains in preparing my jar of honey for exhibit but I was rewarded for my trouble as I won first prize at the township and county fairs. By winning first at the county fair I was entitled to a trip to the Oklahoma state fair, which was worth many times the prize as I saw and learned many valuable things and enjoyed myself fine. I am glad I joined the bee club as I have learned quite a lot of things about bees which I wouldn't if I had not joined. My Colony of bees this year produced 203 pounds of honey."

Then follows a detailed report. On the financial side he estimates the colony as worth \$15, figures his time actually spent looking after the bees at \$2.77 and the foundation used at \$1.50, a total of \$19.27. On the other side of the account he still has the colony, \$15, produced honey to the value of \$60.90, a total of the two items of \$75.90. Subtracting the expenses he is left with a profit of \$56.62. At that rate a dozen hives would support a small family.

Macrocytis a giant sea weed, has a stem 700 feet long.

DANGERS OF A COLD

Many bad cases of kidney trouble result from a cold or chill. Congested kidneys fall behind in filtering the poison-laden blood and backache, headache, dizziness and disordered kidney action follow. Don't neglect a cold. Use Doan's Kidney Pills at the first sign of kidney trouble. Follow this Ada resident's example:

R. O. Hackett, drilling contractor, 224 E. Third St., says: "I can recommend Doan's Kidney Pills, as I have found them very satisfactory for backache and muscular lameness. If I strained my back or took cold, it always seemed to affect my kidneys and start a dull, nagging ache across the small of my back. When I have had these spells, I have taken Doan's Kidney Pills and they have soon fixed me up in good shape. I always tell everyone I hear complaining of kidney trouble to give Doan's a trial."

Price etc. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Hackett had. Foster-Milburn Co., Mfrs., Buffalo, N. Y. Adv.

Morning Offerings and Prices Ft. Worth Produce

White potatoes: arrivals, 4 cars from Idaho, 4 cars from Colorado, one from Utah; demand slow, movement limited, weak market and slow sale. No. 1 grade per sack, \$1.35 to \$1.45. Idaho russets per sack \$1.65 to \$1.75. Colorado Brown beauties per sack \$1.45.

Sweet potatoes: no arrivals; demand and movement slow, locally produced potatoes supplying market. Sales ranged from \$1 to \$1.25 per bushel. Sale to retailers average \$1 per bushel.

Apples: Ft. Worth arrivals, 2 cars from Oregon, one car from Idaho, one from Washington, one from Colorado; demand and movement limited, steady market.

Onions: arrivals, one car from Colorado; demand limited and market steady.

Cabbage: no arrivals; demand good and market steady. Good selling from \$3 to \$3.50 per hundred.

Tomatoes: no arrivals; Tuesday's market of sale and prices remained unchanged.

Live Stock

Cattle—Kansas City—calves steady; calves 50 cents lower, other classes slow and about steady.

Hogs—Kansas City—market active and steady; 170 to 230 pound butchers at \$7.80; packing sows steady at \$6.75 to \$7.00; others down to \$7.75.

TOO MUCH OF A GOOD THING

"It is six years since I had my first stomach trouble. It rapidly grew worse. My food would not digest and I was reduced to skin and bone. My doctor put me on a starvation diet, and when my pains grew worse I concluded it was too much of a good thing. On the advice my druggist I tried Mayr's Wonderful Remedy, and am now entirely well." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.—Gwin & Mays Drug Co., and druggists everywhere. Adv.

ANNIVERSARY DAY

November 1st, 1922

On that day this bank will have served two years as a banking institution in Ada. For the progress made and the enviable reputation for safety and service which has been established in that period of time, we are exceptionally proud, and we cannot but take it as an expression of appreciation for the assistance and accommodation we have endeavored to render the people of this community.

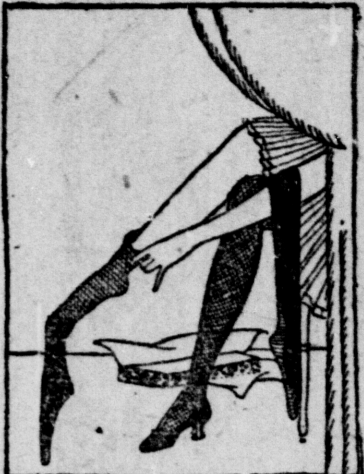

Now, as we are entering upon another year of usefulness, we take occasion to thank you—our friends and customers—for your co-operation in the past, and to invite a continuance of your confidence and patronage in the years which are to come.

Co-operate with us, that we, in turn may be better able to co-operate with you.

IMPORTANT WORK
ARTISTS SHOWN

Prominent Artists of U. S.
Have Many Paintings in
Chicago Show.

(By the Associated Press)
CHICAGO, Nov. 9.—Almost 300 oil paintings and pieces of sculpture, including works of many of the most prominent artists of America, are being shown in the thirty-fifth annual exhibition of American paintings and sculpture now on exhibit by the Art Institute of Chicago.

The exhibit, one of the most important events of the institute year, includes such artists as John Singer Sargent, Wyman Adams, Katherine Langhorn Adams, Frank Benson, Fred C. Friesecke, Hilda Belcher, Walter Ufer, B. Blumenschein, C. P. Gennepin, Paul Manish, Sherry Fry and others.

Nine prizes, carrying with them cash awards of \$5,600 will be awarded by the jury of the exhibition. These include the Mr. and Mrs. Frank G. Logan medal, with a purchase or gift of fifteen hundred dollars, and the Potter Palmer Gold medal, with a cash prize of one thousand dollars.

Awarded at this time also will be the Mrs. Keith S. Alding prize of one thousand dollars, the Norman Wait Harris silver medal with a five hundred dollar prize, the Norman Wait Harris bronze medal with a prize of three hundred dollars, the Mr. and Mrs. Augustus S. Peabody prize of two hundred dollars, the William M. R. French memorial gold medal for a work executed by a student or former student of the art institute. The Martin B. Cahn prize of one hundred dollars, and the Charles S. Peterson annual purchase prize of five hundred dollars. This was not awarded last year and one thousand dollars is available this year.

The jury on painting is composed of Oliver Denet Grover, Carl R. Kraft, Grace Ravlin and Leopold Sayfirt, all of Chicago, John C. Jonansen of New York, H. Dudley Murphy of Massachusetts and George Sotter of Pennsylvania. That in sculpture is Leon Hermant, Alfons Iannelli and Albin Polasek.

The committee on painting and sculpture is composed of Arthur T. Oldis, E. B. Butler, William O. Goodman, Cyrus McCormick, Jr., Abram Poole, Potter Palmer and Martin A. Ryerson.

By rules of the institute, only oil and sculpture by contemporary American artists which have not previously been exhibited at the institute are permitted. The exhibit closes December 10.

Flappers Disappear
as London Starts
Reforming Styles

(By the Associated Press)
LONDON, Oct. 20.—The "flapper type" of young girl is rapidly disappearing in London. The first signs of waning popularity is the discarding of bobbed hair.

According to West End hair dressers shortened locks are no longer approved, and the coming winter season will see new styles in the art of hair dressing. The most popular substitute for bobbed hair is a short pompadour, and the use of a small ribbon or wreath. This is the favorite style of Princess Mary.

The reversion in hair dressing has even gone to the extent that small amounts of false hair will be used this winter.

The new color for fall hats is "green almond," and veils will be worn extensively. The small hat with a veil fastened across the front, which was popular during the war, is to be worn again. The hats will be smaller this fall, but huge shapes, rivaling the "Merry widows" of years ago, will be the rage in the spring.

The new evening dresses in the Regent street windows are entirely minus a back and a cord of white silk has taken the place of a wider shoulder strap. The materials in vogue are dark shades and purple, and heavy silks and satins will be almost the only materials used. Long trains will again grace the ball-rooms, and three distinct trains are not too much for one gown.

Rich oriental brocades and bejeweled ornaments are to be seen on all of the gowns.

Authorities Would
Make Panama World
Aquatic Metropolis

(By the Associated Press)
ORISTOBAL, Canal Zone, Nov. 8.—The warm waters of the lagoon at Gatun Locks; the interest in swimming as a sport and healthful exercise among the Americans living in the Canal Zone, and the energy of Homer Baker, physical director of the Zone, are promising to make Panama, in spite of its distance from the United States, a well-known center in aquatic diversions. The water in the lagoon is a rare combination of fresh and salt, and constitutes another attraction.

Mr. Baker has plans under way to construct the finest swimming arena in Central America. There will be a long straightway course for racing, with room for 100 contestants to start abreast. Two fine steel diving towers; traveling rings and aerial glider and two water polo arenas also will be built, and it is hoped to bring down some well known American swimmers during the coming winter.

Laugh Ahoy! Joy Ahoy!
Ship ahoy! Laugh ahoy! Joy ahoy! Heave, ho, for the American theatre, lads (and lasses, too), for Harold Lloyd has never had such a comedy as "A Sailor Made Man," four solid reels of the cleanest, brightest, merriest fun imaginable. In fact, it even surpasses imagination! Yesterday's audience at the American theatre found difficulty in catching their breath for the next onslaught of mirth. It will remain until Friday.

It is impossible to do justice in a review to the new Lloyd Associated Exhibitors comedy feature, for its fun defies cold type, just as the taste of a delicious tidbit or the sensation of a tickle defies description. Its story is human, its titles are

humorous, its settings of an Oriental city, harem and palace are lavish and spectacular; the battle scenes are authentic.

The story tells of Lloyd as the bored heir to twenty millions, who knows nothing about work and who joins the navy to make good with his sweetheart's dad, and then, in the end, rescues the girl from the wild Maharajah of a fictitious country. Mildred Davis, of course, is the girl. A special word of praise is earned by Noah Young as the roughneck gob and pal of Lloyd.

Notice to Water Consumers
Tomorrow is the 10th, so see that your bill is paid on that date. We will be closed Nov. 11. A. J. Justice Day. J. C. Deaver, Com. Acct. and Finance.

HOLDENVILLE CITIZENS TO
RECEIVE REDUCTION BENEFIT
HOLDENVILLE, Okla.—Residents of this city will receive the benefit of a substantial reduction in electric light and power rates, from Nov. 1, according to word received here from the office of the state corporation commission.

City officials have been advised the new rates remove approximately those increases granted in the war period. At the local office of the Oklahoma Light and Power company it was said that the new rates for electricity for lighting purposes are sixteen cents a kilowatt hour for the first twenty, scaling down to seven cents in quantities in excess of 400 kilowatt hours a month.

As long ago as when the Romans landed in Britain they found London already a considerable town.

GOOD SOAP FOR LESS
THAN TWO CENTS A POUND

Make It At Home By This Easy Process—Takes Less Than 30 Minutes.

Nowadays, more and more women are doing as their mothers did and are making their own soap. If you have never tried it, you will be surprised to see how easy it is to make good soap, soft soap, hard soap or floating soap, just by using kitchen scraps and waste grease together with a can of Merry War Lye, the safe and sure soapmaker.

In the old days when soap was made by the boiling process it took nearly all day to make a kettle of soap. Now it is hardly any work at all—requires no boiling—takes less than 30 minutes. Saves you money and gives you all the pure, clean soap you need for kitchen, laundry and all household purposes.

You will find simple directions for soapmaking on the label of every can of Merry War Lye—also many other recipes such as how to make lye hominy, how to soften water, how to make clothes washing easy, how to brighten cooking utensils, etc.

Merry War Powdered Lye is also a wonderful cleaner and purifier for use about the home, barn, chicken house and outhouses. Comes in a convenient can with revolving sifting top that cannot come off, cannot get lost, recloses tightly and preserves contents. It is economical to buy and easy to use.

Ask your dealer for Merry War Lye—be sure you get "Merry War"—the lye that has made good for 35 years.

OKLAHOMA CITY.—The cotton crop is almost 6,000 bales short in Oklahoma county, according to reports that have been received from there by the state agricultural department.

In these dry times it doesn't take three hips to make a hurra.

Canada Now Claims Limit Record With Isolated Postoffice

(By the Associated Press)
OTTAWA, Ont.—As the result of recent voyages of exploration in the North, Canada now claims the most northerly postoffice in the world—Craig Harbor on Ellesmere Island, only 850 miles from the Pole. Another new postoffice in the north-land is at Ponds Inlet, on Baffin Island. Both were established by the Canadian explorer, Captain Bernier, during the latest tour of his schooner the Arctic.

An inspector and six men of the Royal Canadian Mounted Police are at Craig Harbor, where they have established a post, while four representatives of the famous police corps represent law and order at Ponds Inlet. Sergeant Joy of the "Mounties" has been in the district a year investigating an Eskimo murder.

The Bernier expedition was sent for the purpose of taking the first steps in an extensive program calculated to maintain efficiently Canada's sovereignty in the vast northern region, known to be rich in mineral deposits. The vessel carried materials for the construction of houses and provisions for the maintenance of posts.

According to a statement issued by the Canadian department of the interior, it is the intention of the government to establish additional posts year by year, and to continue scientific and exploratory work. A patrol ship will visit the new northern posts annually, taking in supplies and mail to the men left there. A representative of the Air Board accompanied the expedition and will report on the possibilities of aviation in the north, with particular reference to patrols, and exploratory and survey work.

FRENCH SEEK BUSINESS FROM MOSCOW TRADERS

(By the Associated Press)
MOSCOW.—More representatives of French commercial houses have been visiting Russia this fall than at any time since the war. Some have come to negotiate with the government for concessions of various kinds, while others are here to buy or sell goods.

The first concession to be granted a French company under the Soviet regime was that of the municipality of Moscow, by which deal a group of capitalists from Paris are given a 49 year lease upon certain city blocks. The buildings are to be improved by the French and subleased for business purposes, or as living quarters, the company paying the city government each year a certain percentage of its income.

If life wasn't full of trials, what on earth would the poor lawyers do?

Threats to Business Men Branded as False by Legion Officials

Reports being circulated in some quarters to the effect that threats are being made by the local post of the American Legion to merchants and business men who refuse to close their doors Armistice Day, were branded as false and without foundation today by Gib Polly, commander of the Norman Howard Post.

LIFE INSURANCE BUSINESS IN JAPAN SHOWS INCREASE

(By the Associated Press)
TOKIO, Nov. 9.—According to statistics compiled by the Life Insurance Association, the total assets of the Japanese life insurance companies as they existed at the end of 1921 amounted to 502,288,000 yen showing an increase of 81,288,000 yen compared with the end of the preceding year. Life insurance business in Japan has made remarkable development during the last few years.

JAPANESE SAY SUPPRESSION OF NEWS PREVENT MURDERS

(By the Associated Press)
TOKIO, Nov. 9.—Japan's police, in investigating crime, believe that the publication of facts may assist the criminal to escape. Several cases have occurred recently where the newspapers have published the facts about murders only to be told after it had all been in print that no further reference should be made to the crime. Newspapers which in such circumstances are closely watched, have come out with blank columns, the police having at the last moment ordered news of the event to be suppressed.

NEGRO PORTER TAKEN OUT BY OKLAHOMA CITY BAND

(By the Associated Press)
OKLAHOMA CITY, Nov. 9.—A negro porter at a local rooming house was handcuffed by a band of men late last night and taken to the country where he was given a coat of tar and feathers, according to police reports this morning.

Authorities said they did not know why the negro was punished nor the identity of his assailants.

President to Attend Funeral.

(By the Associated Press)
WASHINGTON, Nov. 9.—President Harding, members of the cabinet and virtually the entire diplomatic corps will attend the funeral early Saturday morning at St.

Mary's church here for Antonio Lopez Gutierrez, the minister of Honduras to Washington who died last week.

Fort Worth Bank Closed.

(By the Associated Press)
FT. WORTH, Nov. 9.—The Security State Bank was closed by the state here this morning. No statement has yet been given out. However bank officials said they would be ready to re-open in a day or two and would resume business. Lack of ready cash was reported to have caused the closing.

FREED OF SLAYING, WIDOW WOULD BREAK HUSBAND'S WILL

Mrs. Catherine Rosier, right, her mother and Baby Richard.

(By Central Press)
PHILADELPHIA, Nov. 9.—Catherine Rosier, twenty-two, the luster of her youthful beauty somewhat dimmed by nine months in a jail cell, today is planning a new life.
A new life for herself and her infant son, Richard, which will forever blot out the tragedy which brought her under the shadow of a prison death house—the killing of her husband whom she found in the arms of his stenographer-sweetheart.
A jury acquitted her of the charge of murdering her husband after due trial and of the murder of the girl without the formality of a trial.
The verdict meant liberty, freedom to go and come as she pleased, and possession of her infant, privileges that had been denied her since the fateful day last January when she added another chapter to the unwritten law by slaying her unfaithful husband and the girl who had taken him from her.
Now in a humble little home here she is preparing to form the new life—the life that will be devoted to her baby.
Mrs. Rosier doubtless could go into the movies, perhaps in vaudeville, and capitalize the tragedy, but she prefers the quiet and comfort of the modest little cottage of her mother who stood by her in her darkest hours and the company of her fatherless child.
She does intend, however, to make a fight for her share of the fortune left by her husband. By the terms of his will the bulk of the \$60,000 estate was left to his brother, Arthur, and his eleven-year-old son by a former wife.
“For myself I do not care,” she has said, “but the child is entitled to a share in the estate and I shall fight to the last ditch to get it for him. Then we shall go into seclusion and try to forget what has gone before.”

COLLEGE NOTES

A large crowd of students and town people were present at the college auditorium last night for the second number of the college lyceum. This was a play, “Friendly Enemies,” given by a company under direction of the Redpath-Horner chautauqua. The play depicted scenes during the late war and dealt with the conversion of a German to a full fledged American citizen. The interpretation, which was largely in dialect, was humorous, with touches here and there of pathos. The play required six characters, whose presentation brought to the audience a lesson in patriotism.

Yuma, Ariz., has only 3.13 inches annual rainfall, the lowest recorded at any United States government weather station.

TIGER CUBS MEET WETUMKA PLAYERS IN FRIDAY GAME

Tiger cubs will go to Wetumka tomorrow for their third game this year. Kirkpatrick, Floyd, Johnson, Morrison, Little, Gatlin, Thompson, Tinkle, Bonham, Riddle, Lentz, Parker, Fentem, Garwood and Culver will compose the team.

Cubs are supporting a number of players who will be candidates for the first team in 1923, according to Coach Thompson. They are given a high school rating and are holding their own, according to records. In the game with Seminole, with half the back field out, the cubs lost 9 to 0. But at Lindsay they won 13 to 7 in a hard fought game.

MADRID.—The employment of girl mail carriers proved so successful during the postal strike that several hundred will be retained.

Farmers' Column

Canning Club Meets With Mrs. Duvall
The Center Women's Canning club met Saturday, Nov. 4, with Mrs. Duvall, the County Demonstrator, at the Chamber of Commerce rooms. The day was spent canning beef. Mrs. W. A. Peck brought one half of a beef, canning 35 No. 3 cans. Lunch was brought by the members.

Pickett Canning Club With Mrs. Betty Meeks
A real old fashioned good time was had by the members of Pickett Canning club when they met with Mrs. Betty Meeks Monday, Nov. 6. This being the day for the lesson in sewing, Christmas gifts were planned and instructions in fancy embroidery stitches were given. The president and vice-president of the Center Canning club were visitors. Plans were made for next years work.

This is the mince meat made famous by the Pecan Grove Canning club.
2 Hogs heads. Well cooked and cold.
2 pounds dried apples.
2 pounds raisins.
1 pound dried peaches
1 box currants.
2 quarts cranberries.
2 tablespoons cinnamon.
2 tablespoons nutmeg.
1 teaspoon allspice.
1 teaspoon cloves.
8 cups syrup.
6 cups of fruit juice of any kind.
Cut off thick part of fat at top of head before cooking.
Cook meat day before and have it cold and dry.
Run through food chopper.
Cook cranberries in half gallon of water. Run through colander.
Don't cook fruit!
Wash and let it drain. Run all through food chopper.
Mix all together.
Add spices and fruit juice and cook until thick.
Can in sterilized jars and seal.

Pecan Grove Club Meets With Mrs. Chapman
The Pecan Grove Canning club met with Mrs. Zula Chapman Thursday Nov. 2. This was the regular Thanksgiving session. Fifteen members answered roll call by telling of five things they were thankful for. Each member told of some service done for friends and neighbors during the past year.

A beautiful display of “exchange ideas” was made. Every member brought garments or fancy work with new stitches or designs.
The report for the year showed that six thousand two hundred and eighty cans of fruit and vegetables had been canned by the twenty members. Meats will be canned later. A social hour followed after which the hostess served assorted pies for refreshment.

NO CHANCE FOR “DRYS” GETTING NATIONAL CONTROL

(By the Associated Press)
TOKIO, Nov. 9.—To the casual observer there would not appear to be any chance of Japan following the United States and going “dry,” but the distillers of sake and brewers of beer, the latter now almost as much a national drink as the former, are taking no chances. A nation wide campaign has been inaugurated in which speakers from the colleges and universities dilute on the beneficial qualities of sake and beer. Dr. Suzako, a well known chemist is delivering a series of lectures among the titles of which are: “Evils of Hypocritical Propaganda,” “Sake after my Impressions of America,” and “Prohibition and Japan.”

The largest fireproof hospital in the world is near Chicago and has 1,264 rooms.

LOCAL GRIDSTERS READY FOR GAME

Armistice Day Tilt at Henryetta Big Event of Season Schedule.

Today the high school football team will end its week's practice for the Armistice Day game at Henryetta, according to word from Coach C. R. Cox. The entire squad has improved in field work, he announces.
Realizing that Saturday's game will be one of the hardest of the season, the coach has taken advantage of a good week for practice to give his men all the new football “dope” possible. While the close formation game was used most effectively in the McAlester game last Friday, he is not depending entirely on close formation plays alone in the Henryetta game.

With Rayburn back at end and Gregg showing up better in every game, he believes that the aerial game will work better this week than it has during the past few games. The open game is also being introduced to the local eleven for the first time. Coach Cox said his men would use at least three distinct types of offensive if necessary.

While devoting considerable time to the defense game, the coach said his men would not be forced to play on the defensive much, as his idea of a good defense was a strong offense. This is taken to indicate that he will drive his men to their greatest efforts in carrying the game to Henryetta Saturday.

Henryetta won a hard battle over Prague last week. The coal town eleven is composed of entirely new men this season, and although meeting several reversals at the early part of the season, is hitting a swift stride now, according to reports.

The team will leave Friday night for Henryetta. The football game will be made a feature of the Armistice Day celebration in Henryetta, it is reported.

Sunday School Work to be Discussed at Meeting Here Tonight

Tonight at seven o'clock Mrs. Carrie G. Templeton of Muskogee will speak at the Episcopal church on Sunday School work. Mrs. Templeton is executive secretary for the Department of Religious Education of the Episcopal Missionary District of Oklahoma. The program includes three subjects: Church School Needs, The Christian Nurture Series, and Christian Service.
Every teacher of the Episcopal Sunday School is expected to be present and to bring manuals together with a note book and pencil. Every Sunday School Teacher and Superintendent in Ada is especially invited to attend. All others who are interested in religious education will be most welcome.

Mrs. Templeton is a skilled and tireless worker. School of Methods which held at Norman in June by Mrs. Templeton, the latest number of the Spirit of Missions (Episcopal) was proclaimed and illustration of “the very steady and striking progress which has been made in that missionary field under the effective leadership of Mrs. Templeton. It is a testimony of what can be accomplished by personal devotion and much visitation; this school, in its opening year, recorded an enrollment of sixty.”

AMERICAN CANNED MILK POPULAR WITH RUSSIANS

(By the Associated Press)
PETROGRAD, Nov. 9.—American evaporated milk is finding an enormous sale in Russia. Nearly as much milk in tins including brands never retailed in the United States, is shown in the shop windows of Petrograd and Moscow as can be found displayed in American cities. Many of these brands apparently are put up exclusively for the export trade.

The price here for a one-pound tin is from 20 to 30 cents. American milk may be bought at the railway stations, in the villages and at the great markets in the cities. In many instances it is peddled by children.

You Can Now Try This Newer Form Of Iron At My Expense

I First Compounded This Remarkable Remedy For My Own Neighbors And Their Praise Of It Has Spread So Rapidly That Now Over Four Million People Use It Annually—Read My Unusual Offer Below.

Years ago I began to wonder at the great number of my own friends and neighbors who were always complaining of indigestion, constipation, and other ailments. I was sure he was suffering from heart disease. Still others had severe headaches, floating spots before the eyes, tender spots along the spine and a great variety of alarming symptoms.

For years I made a special study of this condition, consulting a great number of physicians and chemists. An immense number of investigations by physicians all over the country showed that three people out of every four

meet lack 100% iron in their blood. Lack of iron in the blood is the greatest of all devastating weaknesses. It is the iron in your blood that enables you to get the nourishment out of your food. Without iron, nothing you eat does you any good. Your heart, lungs and kidneys and all your vital organs get their nourishment from the blood stream, and when the blood lacks iron and is thin, pale and watery, you may suffer from the symptoms of a great number of diseases when the real and true cause of all your trouble is a lack of iron in the blood.

In the old days people often took metallic iron, which some physicians claim is not absorbed at all. In compounding this newer form of iron which I call Nuxated Iron, I employed a special form of iron, which is like the iron in your blood and like the iron in spinach, lentils and apples. Unlike the older forms of iron, it will not injure the teeth nor disturb the stomach, and it is ready for almost immediate absorption and assimilation by the blood. It is the people whose blood is rich in iron who possess great strength, force and energy. If you are not strong or well you owe it to yourself to make the following test:

Cut out trial coupon and go to any druggist and get your first trial pack.

age of Nuxated Iron; then see how long you can work or how far you can walk without becoming tired. Next take two 4-grain tablets of Nuxated Iron three times a day after meals for two weeks, then test your strength again and see how much you have gained. An astonishing number of nervous, run-down people who were ailing all the while, have greatly improved their health and increased their strength, energy and endurance simply by taking this newer form of iron.

Trial Coupon

Fill in this coupon with your name and address and take it to any druggist in your city. Deposit with him the price of one regular full-size bottle of Nuxated Iron. This is not a payment, but a deposit only. If you are not more than delighted with the results obtained by two weeks' use of Nuxated Iron, simply return the outside wrapper to your own druggist who will promptly refund your money. We will repay the druggist the full amount he refunds upon receipt of the coupon and wrapper. DAE HEALTH LABORATORIES New York City

Name _____
Address _____
(Fill in your name and address above)

NOTE: The above company is known to be thoroughly reliable. Over 4,000,000 packages of Nuxated Iron are sold annually, and it has been used and highly recommended by former U. S. Senators, Members of Congress, Judges of U. S. Courts and many physicians.
